

# Gregory Pounds

## Software Engineer

224-361-6080 | Skokie, IL | [greg.pounds3@outlook.com](mailto:greg.pounds3@outlook.com) | [Web Portfolio](#)

### TECHNICAL SKILLS

**Proficient:** *Node, JavaScript, React / Redux, Git, SQL*

**Knowledgeable:** *Java, Sequelize, Tailwind CSS, Express, Webpack*

### TECHNICAL PROJECTS

**Adventures of Mr. Meowgi | Lead Developer** | <https://mr-meowgi.onrender.com/> | May/2023

Spearheaded a team of 3 to stretch out of our coding comfort zone and created a survival game using the Phaser library.

- Deepen the roots of creating class objects to structure a game that housed integrous data.
- Counseled the team through the woes of debugging and roadblocks of learning a new technology while also maintaining production of an MVP.

**Grace Shopper Project | Developer** | <https://graceshopperteam4.onrender.com/> | April/2023

A simple project emulating the skills of working in a git org. (**Username: admin Password: 123**)

- Displays a Stateless app through a mock eCommerce site.
- Delivered a foundational database schema to house integrous data.

**ShareJams | Lead Developer** | <https://share-jams-next.vercel.app/> | April/2023

Initialized a pet project to solve a blind spot in the application of Spotify. (**Login with your Spotify ACCT**)

- Ciphred a plan of action and developed a product to virtually sync your playlist with a counterpart with great musical taste so you don't have to tediously share songs on the fly.

### EXPERIENCE

**Branch Lead | Advance-Professional** | Chicago, IL | August/2020 - January/2023

- Spearheaded a turnaround in operations of a poorly performing multi-million-dollar pilot delivery service in the North Chicago and O'Hare Airport adjacent neighborhood.
- Instituted a new training program for drivers and warehouse personnel, developing a vacuum of quick client satisfaction and resulting in sales increase from 260k to 988k a year.
- Collaborated with IT to increase the presence of tech to capture new metrics to advance the growth of sales and customer engagement by 20%.

### EDUCATION

**Fullstack Academy Web Development Bootcamp** | January/2023 - May/2023

Software Engineering Certificate

Full-time, Full Stack JavaScript Web Development Immersive
